Please pass along our contact information to IF&W.

We would be happy to welcome him/her to our property for the purposes of a site visit as it pertains to the vernal pool here however would like advance notice of his/her arrival.

My cell is 6038348549. Jay is 6037675110.

You have our personal email addresses . Please pass along my legislative email as well: Michele.meyer@legislature.Maine.gov

Thanks much, Michele

Jay & Michelle,

Thank you for your written permission to pass on your information to IF&W to perform this site visit to make a more clear determination of how your road and our future access impacts the VP on your property.

We will keep you posted.

Andrew

Hello,

I would welcome IF&W coming down, as well.

Thank You,

Jay Meyer

Thank you Michelle....if you and Jay could both provide a written confirmation of your preferred path we should take and both sign off on it in an email so we have that on file that both parties agreed to this path forward, that would be appreciated?

Regards....Andrew

Hi Jay and Michele,

I hope you are both enjoying this amazing fall weather!!!!

Mike at Attar Engineering has been working with the soil scientist/wetland scientist (Joe Noel) to better understand the VP on your property to ensure we have little to no impact on this VP.

The scientist would need written permission by you both to either have Joe file his findings from his walkthrough of the vernal pool on your property back in the Spring, or have IF&W visit the site themselves to make a determination on the impounded nature of the pool.

Whichever option you prefer, please provide the appropriate permission addressed to myself, Attar Engineering and Joel Noel so we can complete this work and maintain our schedule with the Town planning process.

Thank you both....Andrew
